# The Methodical Process

## Our Experts Empowering Your Experts

**For more than 20 years,** the people behind The Methodical Group have been breaking new ground in IT and Workforce business solutions. Today we harness that forward-thinking expertise on behalf of clients in healthcare, life sciences, finance, and beyond. We empower our clients with precision services and solutions that accelerate their growth and expand their capabilities. Business moves fast. With our help, you move faster.

## Thinking Differently

We believe a methodical and systematic approach for service delivery naturally leads to better, faster, and more predictable outcomes. We also believe that the discipline to adhere to such a methodical approach must also be part of the methodical approach itself. Solutions must **empower** our clients by providing exactly the right service needed to achieve their business objectives – a true and seamless blending of exactly the right talent, engagement model, and value-based delivery approach.

Your solutions are only as strong as the people who plan, build, and support them. Our **ExactSkill™** Framework delivers high-caliber, project-ready talent from a diverse global talent pool – the A-Team every time. And our **ExactFactory™** and **ExactOps™** frameworks enable you to access superior pragmatic services when and how it works best for your business. Most of all, our consumption-based pricing means you only pay for the resources and services that you actually use – and your ROI gets instant lift.

## What Differentiates Us

Thinking differently allows The Methodical Group to stand apart from other service providers in several ways.

- **Breadth of Coverage.** From cybersecurity, data analytics, and cloud computing to product innovation, workforce management, process automation, and artificial intelligence, our comprehensive capabilities give you a one-stop, high-quality solution.
- **Powerful Workforce Engine.** Our rapid and rich workforce solution engine is a powerful standalone division that solves your people problem – so you can focus on innovation and growth.
- **Engagement Uniqueness.** Unlike other consultancies and service providers, we offer flexible engagement models that scale up and down with your needs, and are priced based on consumption. So, whether your usage is tied to tickets, workload, or some other concrete metric, you have complete cost transparency and predictability.
- **Budget Responsive.** Since our workforce is primarily contingent, you'll pay less for talent than you would at other consultancies, while still gaining access to most competent and skilled professionals.
- **Business-Value Driven.** We make it easy for you to demonstrate how our services positively impact your bottom line. Our unique business value methods maps solution metrics to business metrics so the benefits of our engagement are always clear.
